

WXB GENESIS AP

WHITEPAPER

INTRODUCTION

Workxie Billionaire Genesis AP is the Phase 1 launch of WXB. WXBG AP is pivoted on WXBG 2500 collections. The collections are split into three distinct tiers. The notion about the name "WORKXIES" means internet workers, i.e. people who work and earn on the internet.

UTILITY

An interest value calculated at 0.5% has been placed on WXB GENESIS AP. The 0.5% interest value set for a day would last for 400 days. After 400 days, NFTS can be liquidated at 200% interest by the project if the holder chooses to. When WXB holders mint directly from the project, they can to sell to other buyers who want short term. However, holders should be cognizant of the fact that the longer they hold, the more valuable your WXBG becomes. Holders and secondary buyers have the freedom to negotiate what is best for both parties.

WXB PROJECT

Our Project is on Open Sea, the world's first and largest Web3 marketplace for NFTs and crypto collectibles. The ages of our NFTs can be tracked individually on our market place. For those coming short term, keep in mind that we already have some holders. Those who mint from the project buy at the cheapest price.

WEB 3.0 LITERACY

WXBG offers the chance to learn about Web 3.0 and how to navigate the NFT space for the best experience.
